EXPERIENCE

2021 - 2023

Intermediate Front End Developer | tbk Creative | London, Ontario

Worked in an agile environment focused on the development of custom websites and web applications for prominent Canadian brands. Utilized a variety of cutting-edge technologies, including **React**, **TypeScript**, **Storybook**, and **WordPress**. Created solutions with a strong emphasis on accessibility and played a key role in mentoring junior developers.

2018 - 2021

Full Stack Developer | Seventyeight Digital | Toronto, Ontario

Developed custom websites and web applications for clients spanning diverse industries. Proficiently utilized **HTML5**, **CSS3**, **JavaScript**, **jQuery**, **SCSS**, **Bootstrap**, and **Gulp**, among other key tools and technologies. Demonstrated expertise in **Kentico CMS** development, including Portal Engine and MVC solutions. Was actively engaged in all phases of the development life cycle, which encompassed client communication and project management.

2017-2018

Junior Web Developer | Advanced Utility Systems | Toronto, Ontario

Utilized **HTML5**, **CSS3**, **JavaScript**, **jQuery**, **Bootstrap**, **C#**, **ASP.NET**, and **Jira** in daily tasks. Collaborated closely with the QA department to enhance the accessibility of core web application and spearheaded internal training sessions to elevate and uphold accessibility standards.
